### **Pineberry Manufacturing Inc. to Demonstrate the Versatile SF Series Friction Feeder in Booth #104 at Bakery Showcase, May 1-3, 2016**

*Pineberry Manufacturing Inc.'s SF Friction Feeders have many purposes and uses in various industries and distribution/supply chain facilities; they can be installed inline or as a stand-alone friction feeder.*

Toronto, ON, April 20, 2016 – Pineberry Manufacturing Inc. will be exhibiting at the Bakery Showcase with the versatile, multipurpose SF (Singular Feeder) Friction Feeder. Manufactured with robustness and versatility, the SF Friction Feeder is available in widths up to 20 inches (508 mm) and serves product assembly lines, bindery equipment, automated packaging systems, collation systems, printing machinery, and material handling lines.

“The Pineberry SF Friction Feeder that will be displayed at the Bakery Showcase will have a U-Board application for the baking and food industry,” states David McCharles, President of Pineberry Manufacturing Inc. “As U-Boards are stacked on the Pineberry SF Friction Feeder, they are automatically fed through and folded. Our SF can be installed in-line or operated as a stand-alone friction feeder,” continues Mr. McCharles. “Our SF Friction Feeders feed many products, such as: leaflets – insertion, dispensing; cards; magnets; CD’s & DVD’s; pamphlets; flyers; pharmaceutical inserts; die-cut specialty pieces; virtually any flat media,” concludes Mr. McCharles.

Pineberry Manufacturing Inc.'s SF Friction Feeder is reliable and easy to operate with high speeds. The SF is servo motor driven with stainless-steel shafting, and FDA design features. The SF can also come equipped with many features, including ink jet printing, barcode scanning, batch count/exit trays, speed matching and food grade stainless steel.

### **About Bakery Showcase**

The Bakery Showcase Trade Show & Conference was established in 1965. It is Canada's largest and only baking specific event that includes a trade show, educational seminars & workshops and evening social programs. It has been designed to provide a forum where suppliers, bakers small and large and buyers of baked goods can meet on common ground and conduct business.

### **About Pineberry Manufacturing Inc.**

Since 1984, Pineberry Manufacturing Inc. has been developing high-quality friction feeding, printing, packaging and custom automation solutions for the plastic card, packaging, distribution, food and beverage, pharmaceutical, graphic arts, and mailing and fulfillment industries. Additionally, Pineberry specializes in integration, working with OEM's and providing customized solutions for the most demanding environments. Whether it is a standardized leaflet feeder, feeding and labeling bags, feeding cookies or an integrated custom solution, Pineberry has the expertise to provide exceptional products to make your project a success.
