Press Release

Pineberry Manufacturing Inc. to Demonstrate the Versatile SF Series Friction Feeder at the Top 50 Packaging Ideas Expo, June 7, 2016

Pineberry Manufacturing Inc.'s SF Friction Feeders have many purposes and uses in various industries and distribution/supply chain facilities; they can be installed inline or as a stand-alone friction feeder.

Toronto, ON, May 19, 2016 – Pineberry Manufacturing Inc. will be exhibiting at the Top 50 Packaging Ideas Expo with the versatile, multipurpose SF (Singular Feeder) Friction Feeder. Manufactured with robustness and versatility, the SF Friction Feeder is available in widths up to 20 inches (508 mm) and serves product assembly lines, bindery equipment, automated packaging systems, collation systems, printing machinery, and material handling lines.

“The Pineberry SF Friction Feeder that will be displayed at the Top 50 Packaging Ideas Expo will have a print system application,” states David McCharles, President of Pineberry Manufacturing Inc. “The integrated print system allows flat media to be printed on while being fed. Print includes barcodes, serialization, text, images and more,” continues Mr. McCharles. “Our SF can be installed in-line or operated as a stand-alone friction feeder. Our Friction Feeders feed many products, such as: leaflets; pamphlets; flyers; pharmaceutical inserts; die-cut specialty pieces; brown and plastic bags; virtually any flat media,” concludes Mr. McCharles.

Pineberry Manufacturing Inc.'s SF Friction Feeder is reliable and easy to operate with high speeds. The SF is servo motor driven with stainless-steel shafting, and FDA design features. The SF can also come equipped with many features, including barcode scanning, u-board folding, batch counting, exit trays and speed matching.

About Top 50 Packaging Ideas Expo

Presented by Canadian Packaging and Annex Business Media, the Top 50 Packaging Ideas Expo attracts decision makers from the consumer packaged goods markets of food, beverage, pharmaceutical, cosmetic, personal care and household products. The Top 50 Packaging Ideas Expo is scheduled for Tuesday, June 7, 2016, at the Mississauga Convention Centre in Mississauga, Ontario. The Top 50 Packaging Ideas Expo provides a forum for face-to-face interactions where packagers can discuss, network, solicit advice and display the latest products and concepts that help them achieve results.

About Pineberry Manufacturing Inc.

Since 1984, Pineberry Manufacturing Inc. has been developing high-quality friction feeding, printing, packaging and custom automation solutions for the plastic card, packaging, distribution, food and beverage, pharmaceutical, graphic arts, and mailing and fulfillment industries. Additionally, Pineberry specializes in integration, working with OEM's and providing customized solutions for the most demanding environments. Whether it is a standardized leaflet feeder, feeding and labeling bags, feeding cookies or an integrated custom solution, Pineberry has the expertise to provide exceptional products to make your project a success.
