Press Release

Pineberry Manufacturing Inc. to Showcase CA 10000 Affixing System in Booth #969 at GRAPH EXPO 16, September 25-28, 2016

Pineberry Manufacturing Inc.'s CA 10000 Affixing System has a placement tolerance of 0.1mm.

Toronto, ON, July 5, 2016 – Pineberry Manufacturing Inc. will be exhibiting GRAPH EXPO 16 in Orlando, Florida with the Pineberry CA 10000 Affixing System. Integrated with Pineberry Friction Feeder's and a vacuum conveyor line, the CA 10000 Affixing Systems will stick, glue or attach product to a carrier. Applications such as affixing plastic cards, magnets, coupons, pharmaceutical onserts/inserts for complex full mailing and fulfillment solutions can be fulfilled with speed, simplicity and accuracy.

“Our CA 10000 Affixing System is operator friendly, requiring minimal setup and changeover time, and comes integrated with easy to use touch screen controls,” states David McCharles, President of Pineberry Manufacturing Inc. “Our fully automated affixing/tipping system makes gluing media together simple and very accurate. The CA 10000 can be used for affixing plastic cards to carriers, coupon tipping, placing media on to greeting cards and so much more,” continues Mr. McCharles. “With an ultra-quiet vacuum conveyor, card affixes short edge leading any position on carrier, and includes an exit conveyor to shingle and batch for easy operator unloading,” concludes Mr. McCharles.

Pineberry Manufacturing Inc.'s CA 10000 Affixing System is fully automated, making gluing product to a carrier simple and very accurate. Its durability and customization allows for wide applications (up to 20" (508 mm)), packaging or mailing in-line, creasing, plow folding or knife folding, barcode scanning and target tracking, with speeds up to 18,000 per hour depending on product specs. Applications include affixing pharmaceutical leaflets; plastic cards; magnets; coupons; booklets; sample packs; envelopes; and much much more. Like all Pineberry products, the CA 10000 can be customized to the operator's requirements, and is in line with FDA design features.

About GRAPH EXPO

GRAPH EXPO 16 is the most comprehensive exhibition and conference for the global graphic communications and package printing industry. This show covers mailing & fulfillment, printing, publishing, online, and mobile technologies. Scheduled for September 25-28, 2016, at Orlando, Florida's Orange County Convention Center, GRAPH EXPO 16 attendees access the latest inkjet, digital, offset, flexo, gravure and hybrid technologies, products, and services for the commercial, transactional, converting and package printing, publishing, mailing, in-plant, photo imaging, marketing, and industrial printing industries. This year's "Refresh" themed GRAPH EXPO 16 offers an exciting show-going experience for a diverse spectrum of attendees. The industry event presents the latest graphic communications technologies in live equipment demonstrations across the exhibition floor, plus education on the most in-demand products and newest profit-making opportunities. GRAPH EXPO 16 offers 4 action packed days with 400+ top industry suppliers, 40+ co-located events for attendees and live demonstrations of the hottest new technology.

About Pineberry Manufacturing Inc.

Since 1984, Pineberry Manufacturing Inc. has been developing high-quality friction feeding, printing, packaging and custom automation solutions for the plastic card, packaging, distribution, food and beverage, pharmaceutical, graphic arts, and mailing and fulfillment industries. Additionally, Pineberry specializes in integration, working with OEM's and providing customized solutions for the most demanding environments. Whether it is a standardized leaflet feeder, feeding and labeling bags, feeding cookies or an integrated custom solution, Pineberry has the expertise to provide exceptional products to make your project a success.
